

Parents of a student who needs therapy.

It is sometimes difficult to adjust your busy schedule with the therapy sessions your child requires. **Not anymore.**

As part of our commitment to our students and their families, our school now offers a new service called Therapy at School, in partnership with Therapies 4 Kids, Inc.

Certified Therapists will come in our premises, during school time, to provide Physical and ABA Therapy* to children who may need it. At no additional cost.

Most insurances are accepted, and free ABA evaluations are offered to families without insurance.

Therapy at
SCHOOL

Call John, **954-633-8645** Ext. 206

(*) Please note that some treatments may require specific devices and cannot be performed within the school. Please contact John at Therapies 4 Kids if you have any question.

With 6 clinics in South-Florida, Therapies 4 Kids is the leader in pediatric intensive therapy for children with neurological and developmental disorders, such as Cerebral Palsy or Autism, or suffering injuries resulting of a car accident, sport practice, or a slip & fall.
